

## Accessing Your Library Account 24/7 Spring 2019 update

Haggerty Library | Mount Mary University

Everyone at Mount Mary University has a library account. Use your **MMU ID card** to check out library materials or to **access library resources off campus 24/7**. To log in, choose **Primo Login** on the library home page or use the home page search box. (This takes you right into Primo.) This is the shared library catalog of the [SWITCH Library Consortium](#), consisting of 8 smaller Milwaukee-area academic libraries. SWITCH also provides Haggerty Library users' off-campus access, as seen below.

Off-campus, when you try to open a database (or article) via Primo, or Databases A-Z, you will see a screen similar to this:

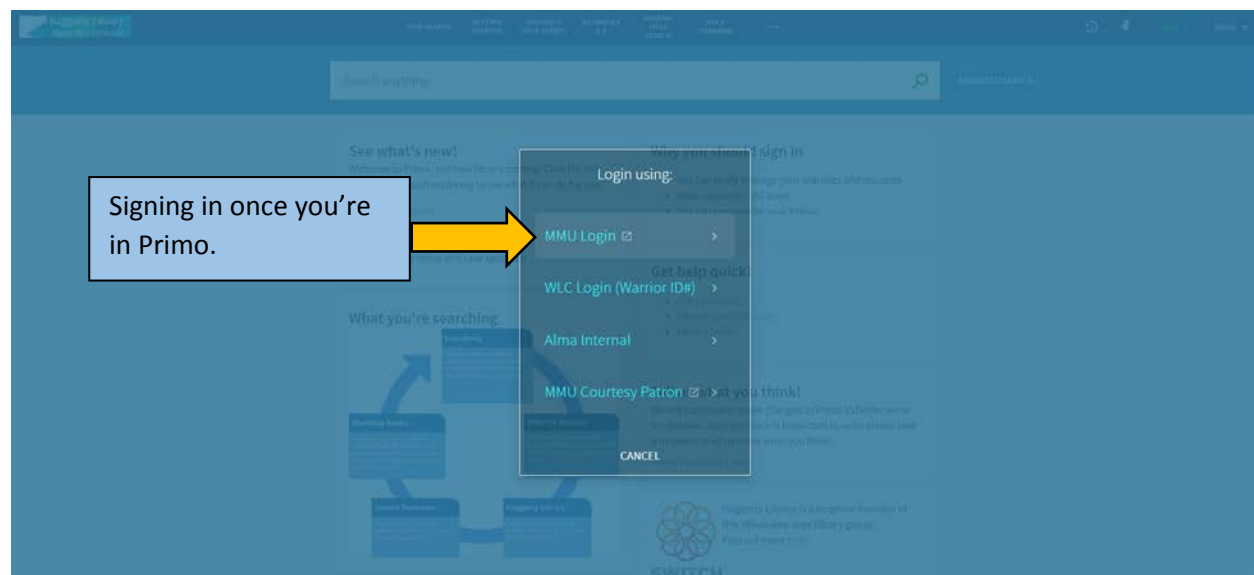

The screenshot shows the Mount Mary University login page. The top right features the university logo and the text "Sign in with your full email account". Below this are two input fields: the first contains "mtmary.edu" and the second is empty. A "Sign in" button is visible. A blue overlay box on the left contains the following text:

**User name:** your full MMU email address  
**Password:** your MMU email password  
a.k.a., your regular Mount Mary email login!

After signing in, you will end up directly in the database or article you clicked on.

NOTE: when logged into your Mount Mary email, you can easily log into Primo by clicking Sign In in the upper right corner (see below), and then choosing MMU Login.

Additional text on the page includes "Please check [here](#) or contact the MMU IT (414) 930-3048 for assistance." and a footer with "© 2016 Microsoft Home Privacy Terms of Use".

The screenshot shows the Primo login menu. A callout box on the left contains the text "Signing in once you're in Primo." with a yellow arrow pointing to the "MMU Login" option in the menu. The menu options are:

- MMU Login
- WLC Login (Warrior ID#)
- Alma Internal
- MMU Courtesy Patron

The menu also includes a "CANCEL" button at the bottom. The background shows the Primo interface with a search bar and various navigation options.
