Student Role Description

Kenosha CADT Practicum Placement

- Work directly with the Mental Health Professionals (MHPs) to benefit from the MHPs' expertise in and knowledge of group room dynamics. Learn group-based interventions which utilize Dialectical Behavior Therapy (DBT) and Attachment-Regulation and Competency (ARC) models.

- Advance from observing groups and the group room milieu to actively researching, planning, and leading psycho-educational groups on a weekly basis.

- Take an active role in the behavioral reward programs within the groups by helping patients set achievable, measurable goals and assessing their progress on these goals.

- Develop crisis management techniques and assist with verbal de-escalation in the group room and hall through direct observation, mentoring, and eventual independent practice (with support and oversight of staff).

- Learn documentation requirements and be able to independently complete charting (patient care notes, group notes, etc.) that clearly outline the patient's goals and progress towards those goals.

- Work 1:1 with patients (with staff/observation and support) who are struggling to feel comfortable or to complete group activities in the room.

- Work with group members to practice and refine positive social skills.

- Increase awareness of DSM-V diagnoses and diagnostic presentations across developmental levels.

- Participate in treatment team staffing and team meetings to gain experience contributing to a therapeutic milieu and being part of an interdisciplinary team.

- Work with Masters level CADT staff and Licensed Psychologists to benefit from their expertise in providing therapeutic intervention, assessment, and milieu management.

- Meet with patients for individual and family therapy sessions (with patient/family approval) under the supervision of MS prepared CADT staff and doctoral level CADT Psychologists.

- Observe and then learn to complete primary responsibilities of Social Worker role including social service assessment, developing care plan, updating goals, and discharge planning (as opportunities arise) under the supervision of a Masters level CADT staff or Psychologist.

- Attend and participate in weekly supervision with Attending Psychologist or designated supervisor.

- Follow all RMH policies and procedures and expectations outlined in student practicum handbook.
