Internships

Ozaukee Community Therapies (OCT) is accepting 2 interns for the 2020-2021 school year. The internship experience is progressive. You will start out getting oriented to the clinic, learning about paperwork, forms, understanding how the clinic runs and observing sessions/groups. You will grow to building your own caseload. In addition to counseling, our graduate students get the opportunity to represent our clinic at community meetings, co-facilitate trainings and groups, and bill insurance for some of their services. As a result, our interns also get paid while learning how insurance billing works. At OCT, we see our interns as part of our therapy team. Just like our staff, their scheduling is flexible (you pick the days/hours that work best for you). However, interns must be available on Tuesday mornings for staff meetings.

If you are interested in applying, please send your letter of interest and CV/resume to:
