Comments: Include any suggestions for improvements in the experiences you have rated moderately (C) or very unsatisfactory (D).

The only experiences I rated lower (C) were administration and interpretation of tests and individual counseling. I did not administer any tests and we had limited time chances to do individual counseling as interns. Instead, the focus is on groups or doing short check-ins. I feel confident doing individual sessions, but I hope to learn more about tests in my 3000 hrs.

Based on your practicum/internship experience, select one of the following statements:

☐ I wholeheartedly recommend this site for future students.
☐ I recommend this site for future students.
☐ I recommend this site, with reservations, for future students.
☐ I do not recommend this site for future students.

Explain your statement.

I would wholeheartedly recommend this site to future students, the only drawback is that we can't use tape or for class assignments. Although we can't tape and have limited chances for individual counseling, I believe I learned an abundance of information and feel competent working with a large variety of individuals. This site is extremely stressful and fast-paced and you need to be confident with body image and eating behaviors to be successful.
