One significant reason this placement worked out so well for me is that I had previous academic/professional/personal relationships w/ many of the MCW psychiatry professors, including my supervisor. It would likely take such connections to get this site placement.

Based on your practicum/internship experience, select one of the following statements:

✓ I wholeheartedly recommend this site for future students.

___ I recommend this site for future students.

___ I recommend this site, with reservations, for future students.

___ I do not recommend this site for future students.

Explain your statement.

This site was the perfect match for me & would be as well for future students w/ serious dedication to interest in psychodynamic psychotherapy. For students w/ other interests, or a broader range of interests, or for students who are not sure what they are interested in, the center for psychodynamics would be a poor match. Similarly, this site requires much personal initiative & self-determination. Students who do not want to take on immediate responsibility of handle individual cases on their own should look elsewhere.
