The community resources part is taken care of by our case coordinators. We rarely do assessments. Those are all typically done by the psychologist on staff, which you can ask to sit in on. I do wish more conferences were offered, but there were a lot of reading materials available to me. No program evaluation was done.

Based on your practicum/internship experience, select one of the following statements:

☒ I wholeheartedly recommend this site for future students.

☐ I recommend this site for future students.

☐ I recommend this site, with reservations, for future students.

☐ I do not recommend this site for future students.

Explain your statement.

This site was my previous job before internship, but I feel the experience was more than beneficial for my training. I was able to do career, individual, group, and family work all associated with trauma of some nature. The age range of clientele was 7-22 which gave me a variety of experience. The disorders range from ODD to anxiety to PTSD. The supervision I received was superb from two supervisors! Overall I have learned a great deal from my time at GLS.
