☐ Intake interviewing
☐ Programming/planning activities
☐ Administration and interpretation of tests
☐ Staff presentations/case conferences /staff development workshops
☐ Individual counseling
☐ Group counseling
☐ Family/couple counseling (N/A in the traditional family counseling sense)
☐ Psycho-educational activities
☐ Consultation
☐ Support team, collaboration with other professionals
☐ Career counseling (N/A)
☐ Program evaluation
☐ Other ____________________________
Comments: Include any suggestions for improvements in the experiences you have rated moderately (C) or very unsatisfactory (D).

This particular site met my particular career goals 100%. It helped me do exactly what I wanted to do in terms of integrating my music therapy career with my new counseling skills/career. It provided me with plenty of opportunities to work with and observe other disciplines in an interdisciplinary approach (i.e. psychologists, social workers, medical staff). This site provided me with a wide range of perspectives within the medical setting which is where I hope to continue my work. Through observations/reviews I had the opportunity to see counseling from within the medical model approach which is very different than community mental health or private practice.

Based on your practicum/internship experience, select one of the following statements:

X I wholeheartedly recommend this site for future students.

___ I recommend this site for future students.

___ I recommend this site, with reservations, for future students.

___ I do not recommend this site for future students.

Explain your statement.

This site is fabulous for any student looking to integrate counseling into a general medical setting; i.e., a medical model. There is a myriad of learning experiences & observation experiences at this site. The supervision was frankly stellar and I have no doubt I will miss this relationship as I continue to see pts from a counseling perspective.
