Rogers At-a-Glance
Rogers Memorial Hospital

Patients from across the nation have come to recognize Rogers Memorial Hospital, part of Rogers Behavioral Health, as a leader in providing personal, evidence-based mental health and addiction treatment for children, adolescents and adults.

- More than 108 years of dedicated behavioral health treatment
- Multidisciplinary team provides in-depth assessment and treatment
- Evidence-based treatment supported by research
- 80+ onsite psychiatrists, physicians and psychologists
- Contracts with many health plans and financial counseling available
- Independent, non-profit organization

Rogers creates an environment where our patients and families know what tomorrow will bring: life worth living.

Levels of Care

Rogers offers several levels of care for children, adolescents and adults:

- **Intensive Outpatient** – 3 hours per day, 4 days per week
- **Partial Hospitalization** – 6 hours per day, 5 days per week
- **Residential Treatment** – 30-90 days, 7 days per week, in Oconomowoc
- **Inpatient Services** – Acute stabilization and withdrawal management, 3-10 days, in Brown Deer, Oconomowoc and West Allis

Treatment Components

Rogers’ treatment philosophy emphasizes psychiatric education and therapy through a multidisciplinary program which includes:

- Psychiatric assessment and medication management
- Cognitive behavioral therapy
- Dialectical behavior therapy
- Exposure and response prevention
- Behavioral activation
- Prolonged exposure
- Experiential therapy
- Group therapy
- Patient and family education

Treatment Services

- Addiction and Dual Diagnosis
- Child and Adolescent Mental Health
- Depression and Mood Disorders
- Eating Disorders
- OCD and Anxiety Disorders
- Posttraumatic Stress Disorder
