I was the first ever intern at the HRC and feel there is room to grow with how an intern functions in this structural system. Over time, a lot of positive training started to happen, but it took a little longer than expected. The hiring process took 3 months to go through which set me back 3 months in experience which was unsatisfactory for me. I believe Dr. Wetternick will continue to mold this program to be more conducive for interns in the next year or two.
