The supervision at the site is extremely limited. My supervisor was never around and we did not have a weekly appointment. It was a bit understandable for the sheer fact that he was recently promoted to House Director which came with a lot of new responsibilities. Towards the end of my internship, he was around more and did check in throughout the day to see if I needed anything. There were two other therapists at the shelter who were a lot of help and always offered support. Staff was also helpful. There weren't a lot of opportunities to run groups unless you stayed at the shelter late. Opportunities for family session were rare for me personally due to my client.

Based on your practicum/internship experience, select one of the following statements:

___ I wholeheartedly recommend this site for future students.
___ I recommend this site for future students.
X  I recommend this site, with reservations, for future students.
___ I do not recommend this site for future students.

Explain your statement.

If you are wanting a site with direction and supervision, I would not recommend. If you are wanting an experience where you have to take charge and be open to a wide variety of experiences, I would recommend. I was able to really find who I was as a counselor and learn on my own which I appreciated at times. I really enjoyed the population I worked with and felt very fulfilled as a counselor. I really cherished the experiences I had.
