**Comments:** Include any suggestions for improvements in the experiences you have rated moderately (C) or very unsatisfactory (D).

There needs to be a focus on counseling if it is a site for a counseling internship. An intern needs proper supervision. If the supervisor is replaced, that person needs to take that role seriously.

- The Relaps Prevention Group was very beneficial. The main supervisor at LCS should know what group is taking place. (She was unaware of what the group was or what it entailed.)
- There was minimal individual (one-to-one) counseling. It was going against the grain just to find a sufficient room to use.

Based on your practicum/internship experience, select one of the following statements:

___ I wholeheartedly recommend this site for future students.

___ I recommend this site for future students.

___ I recommend this site, with reservations, for future students.

[ ] I do not recommend this site for future students.

**Explain your statement.**

This site is viable for care case management or social work. Those things are important but not the focus for counseling interns. There should be the LPC's they have there are case managers. There should be counseling sessions for the intern to sit in and learn from. The counseling intern should not be the only one doing counseling.
